ABOUT ME

Web developer with full-stack exposure, experienced in building responsive and user-focused applications using React, Fast API, AI integration. Demonstrated ability to develop and optimize web solutions with a focus on performance, usability, and clean architecture. Passionate about solving real-world problems through efficient and scalable systems.

PROFESSIONAL EXPERIENCE

Intern - Wrench cloud startup

Current - remote

- Developed and enhanced features for a Garage OS platform, streamlining invoice and job card workflows, reducing manual effort by approximately 60%.
- Optimized UI and API integration to improve data flow and system responsiveness, reducing load time by approximately 25% and enhancing overall user experience.

Open source contributor - SWOC

Jan 2025 - Mar 2025

- Contributed to 6+ open-source projects, developing and enhancing features to improve application usability and user experience.
- Utilized Git and GitHub for version control, collaborated with distributed teams, and participated in code reviews to ensure quality and timely delivery.

PROJECTS

DocForU – AI-Powered Document Generator (version 1 of microSaaS)

[Live Demo](#)

- Built and deployed a full-stack web application that generates structured DOCX and PPT files dynamically from user-defined topics and sections
- Designed a microservice architecture using React (Vercel), Node.js, and FastAPI (Render) for scalable content generation and processing

Mood to story generator

[Live Demo](#)

- Built an AI-based web app that generates stories based on user-selected mood and narrates them using text-to-speech
- Implemented dynamic storytelling with emotion-aware narration and playback controls

TECHNICAL SKILLS

- Programming languages: C, Python, JavaScript
- Web Technologies: HTML, CSS, Flask, React, FastAPI, node js, express, Tailwind CSS, Bootstrap
- Professional Skills: Leadership, Team Collaboration, Problem Solving, Strategic Thinking

EDUCATION

Aug 2023 - Jun 2027

Malla Reddy Engineering College for Women
BTech - CSE (AI & ML) - 9.05

ADDITIONAL INFORMATION

- **Certifications:** Responsive Frontend design certification - FreeCodeCamp, NPTEL certificate on DSA using python, CSS certification upon passing skills test- Hackerrank
- **Awards/Activities:** Gate - 2026' qualified, Reliance scholar 23 - 27', Hackathon Finalist – Atomberg (2024)
